# TONOPAH DAILY BONANZA

Today's Silver  
Quotations, 61

VOL. XXII, NO. 90. TONOPAH, NEVADA, THURSDAY EVENING, AUGUST 8, 1912 PRICE 10 CENTS

## ROOSEVELT AND JOHNSON CONFER WITH PROGRESSIVE COMMITTEE AS TO SELECTION OF NEW OFFICERS

CHICAGO, August 8.—Colonel Roosevelt and Governor Johnson held a conference last night with the national committee to choose an active committee, treasurer and headquarters. Oscar Strauss will probably be the treasurer. Perkins and Munsey will be members of the finance committee. Dixon will be national chairman with Franklin of New Jersey vice chairman, and Oscar Davis secretary.

Roosevelt and Johnson this morning held a reception with the notification committee and were then photographed. According to the convention's rules the national committee must contain four women. Miss Adams and Miss Elizabeth Dabney of California are mentioned. The main headquarters will probably be here with others in New York, Atlanta, San Francisco and Portland.

Johnson is undecided whether to resign the governorship of California. Caucusses were held by the national committeemen this morning and the situation in various states discussed. The exodus of delegates has been completed. Roosevelt and wife and Dixon start for New York on the Twentieth Century Limited. Johnson starts west tonight.

## REJECTED SUITOR KILLS TWO GIRLS THEN ESCAPES

**GIRLS ARE SHOT DOWN IN COLD BLOOD WHILE BOTH PAR-ENTS ARE ABSENT**

WEAVERVILLE, Cal. August 8.—Kate Gould, 13, and Elba Gould, 15, were found shot to death at the home of William Lorenz, their stepfather.

George Lorenz, Williams brother, a rejected suitor of Elba, took to the hills, armed with a Winchester rifle and an automatic pistol. Posses are pursuing him.

The girls were slain at the Lorenz home while their mother and stepfather were absent. The house was splattered with blood, and the elder of the girls' clothing was torn. She made a desperate fight for her life.

The tragedy occurred in the mining region on Trinity river yesterday afternoon. News was received here today. Lorenz is expected to fight to the death.

## REBEL TROOPS AND FEDERALS IN LONG BATTLE

**FIGHT FOR SIX HOURS AND DELAY FEDERAL ADVANCE UPON JUAREZ**

EL PASO, Tex., August 8.—Rebels along the Mexican Central railroad have been fighting for six hours with the advance guard of the federals advancing on Juarez.

The forces met at the Villa Ahumada, 100 miles south, and it is reported the rebel advance upon Chihuahua has been checked. Orozco admits submitting a peace proposal to Madero, but the terms have not been divulged.

## TAFT DECLARES WILL VETO WOOL AND STEEL BILLS

**STATES MEASURES WERE NOT FORMULATED WITH THE AID OF TARIFF BOARD**

WASHINGTON, August 8.—Following a cabinet meeting today, Taft has indicated he intends to veto the wool and steel revision bills.

A single message will cover both measures, declaring that neither was formulated with the aid of the tariff board, and therefore does not constitute a scientific revision.

## MINING MAN TO RECOVER

Charles Grutt, father of the Grutt brothers, who were the live wires of Rawhide in the early days of that camp, the lads who spent their money like water in order to de-

## OFFICIALS OF TONOPAH MINING HERE ON VISIT

**PRESIDENT, VICE PRESIDENT AND GEOLOGIST EXPECT ARRIVE FROM EAST**

That the people in the east are rapidly appreciating the wonders of Tonopah as a great mining camp is evidenced by the fact that many from the other side of the continent are coming from the commercial marts of the world to give a personal inspection of the greatest silver-gold camp in the world.

This morning a party of eastern capitalists arrived in a special car and will spend the week in Tonopah.

Among those in the party are Messrs. J. S. Austin of Philadelphia, Victor B. Woolley, J. A. Ellegood and J. H. Whiteman of Wilmington, Del. They were accompanied by T. E. Spurr, the noted engineer.

Mr. Austin is president of the Tonopah Mining company, while Mr. Whiteman occupies the office of vice president and general counsel.

## DIPLOMATS ARE ALARMED AT THE TURKISH SCARE

**TURKISH SITUATION IS BELIEVED SERIOUS AND WAR APPERS IMMINENT**

LONDON, August 8.—Diplomats are alarmed at the Turkish situation as a revolution is considered certain. Serbia, Bulgaria and Montenegro are arming their forces. Turco and Greek relations are strained and a rebellion is imminent in Asiatic Turkey. Everything indicates a breakup of the ottoman empire and it is feared it will endanger Europe's peace. Enraged at the massacres of the Bulgarians in Turkey the people are demanding war. A mobilization is expected. Turkey has not replied to Bulgaria's protest of the slaughter and demand for indemnity.

LONDON, August 8.—Public sentiment opposes the imprisonment of the Dublin suffragettes. The government fears retaliatory measures and the police admit they are in fear of attempts at assassination.

Develop the mineral resources of that region, was brought to Reno two months ago suffering from harding of the arteries and his case was deemed hopeless, but Dr. Hitch now pronounces him practically cured.

In fact, the old gentleman rides forth every day and is able to walk about his room. Fred Grutt, one of the sons, has been with him all through his illness and another son, Sheriff Grutt of Mineral county, is now visiting him for a few days, while L. Grutt, another son, has spent the past two weeks in Reno.

## NATIVE BORN CHINESE WILL VOTE HERE ON ELECTION DAY

Justice of the Peace H. H. Atkinson, registry agent for the primary election, was called upon yesterday to register a Chinese and obtained the distinction of registering the first person of that nationality in this county.

Chin Fat, the Chinese, is a native of San Francisco, and was born in that city 32 years ago. He has been educated in the California schools and writes a hand that would make many of the Tonopah business men look well to their laurels. Chin Fat produced the necessary papers to show that he was an American citizen and entitled to vote and he was enrolled upon the registry books. He has resided in Tonopah for several years and is engaged in the laundry business.

## VALUABLE IONE PROPERTY TAKEN OVER BY TONOPAH MINING MEN

J. N. Bryan of Ione, in the northern part of the county, returned home yesterday after a week's visit in Tonopah, during which time he consummated a deal for the sale of two claims and the bonding and leasing of six others. In the Ione district, to well-known Tonopah people. One of the claims sold is that on which Messrs. C. J. Blumenthal, T. D. VanDevort, Frank P. Darragh and others of Tonopah have been conducting a lease for the past four months, and which at a depth of 50 feet and in the drifts running from that level, shows a strong ledge of high-grade silver ore. From the ore extracted during the progress of this work one milling has been made and it showed gold values approximating \$90 per ton.

The parties who have bought the property from Mr. Bryan have in the last few days incorporated the Tonopah Ione Mining, Milling & Leasing Co., and transferred the purchased claims over to that corporation. The optioned property has also been transferred to the new company. The company will continue the work that has been inaugurated and immediately sink the lease shaft another lift of 50 feet, from whence drifts will be run to the east and west and crosscuts to the north and south with the purpose of cutting the numerous surface ledges at depth. These latter on the surface show some remarkably rich ore and should they continue to depth they will develop some wonderful ore bodies. The company will also prosecute work in a 70-foot shaft on one of the bonded claims, where a rich shoot of silver-gold ore has been opened up.

Just to the south and east of these claims and at the bottom of the hill on which they are situated are the gulches which have produced so much placer gold in days gone by, and it is the belief of experts that the rich ledges which traverse the hill have been the feeders for the placers for centuries past.

Mr. Bryan states that when he left Ione word had been received that M. J. Doolan, who recently purchased the Katherine group of claims, had departed for England in company with Judge J. P. O'Brien, and that after a consultation with his British associates, he would begin a campaign of work on his property.

There is also a proposition on, stated Mr. Bryan, to begin work on the old placer ground, and this once begun will be the means of again putting Ione on the map as a producer of placer gold.

In the Paradise range, 12 miles to the west of the Ione range, Messrs. Harris, Allen and Lehr of Austin have taken a bond and lease on the Le Beau property and in a drift about 80 feet below the surface are extracting two feet of \$60 gold ore.

Mr. Bryan states that when he first need of the Ione country at the present time is milling facilities. With this provided for there need be no fear for the future of the camp. The gold is there and lots of it.

## EXTRACT CHUNKS WIRE GOLD FROM HIGH GRADE VEIN MANHATTAN LEASE

Special to the Bonanza

MANHATTAN, August 8.—A high-grade vein producing the most beautiful and remarkable ore specimens ever found in a Manhattan mine, is the development of the week in the Mushett-Wittenberg lease on the Manhattan Consolidated.

The ledge matter on the 250 level at present averages four feet wide and seems to be making for the same big shoot that is still being explored on the 130. Its width is increasing gradually. There is a horse of lime in the center of the ore, with a foot of very high-grade on the hanging wall side and something over that amount of milling ore on the foot.

The ore on the hanging is shot full of wire gold, most all of it showing to the naked eye anything from colors to great masses of the most brilliant yellow stuff in the form of weird clusters. It was one of these with not more than a pound of rock that was found during the week and the amount of the gold in the cluster is between \$8 and \$10.

The specimen was brought down town immediately and placed on display in the show case of North, Ferguson & Co., where hosts of curiosity seekers have been attracted by the remarkable sight, all agreeing that never before has a Manhattan mine given up such a wonderful specimen.

L. L. Mushett, manager of the lease, is arriving at the conclusion that the various occurrences of rich ore that he is encountering mark the presence of so many ore chambers of great productive potentialities. Such being the case and with further finds of high grade like this and that in the Kendall-Douglas lease adjoining, Manhattan will soon be favorably comparable to the palmiest days of Goldfield when it was a leasing camp.

## EXPLOSION IN GERMAN MINE ENTOMBS MANY

DUSSELDORF, Ger., August 8.—Forty workmen were killed and about 150 were entombed in a coal mine at Gerth today by an explosion. Fifty to 100 are probably dead. The explosion was caused by fire damp.

Justice of the Peace H. H. Atkinson departed this morning for Salt Lake, having been unexpectedly summoned to that city on business. He will be absent about four days.

James H. Forman, one of the pioneers of Tonopah and who is interested in a number of mines throughout the state, arrived on this morning's train from the coast.

## PRETENDED DISORDERLY HOUSE MAINTAINED TO SECURE EVIDENCE AGAINST BAND WHITE SLAVERS

NEW YORK, August 8.—District Attorney Whitman admitted that the Rockefellers are backing a man operating a pretended disorderly house in the heart of the white light district to get evidence for the police against white slavers. The evidence will be used at Becker's trial.

Rockefeller has proved that an ordinarily disorderly house pays \$600 a month for graft, the more elaborate houses pay more and the smaller houses far less. Whitman declared that white slaving is a regular trade in the country, and foreign girls are taken to the resorts and auctioned.

The Rosenthal grand jury has reconvened and 20 witnesses are ready. It is reported that Rockefeller's evidence involves many prominent police officers.

## FRUIT DEALERS OF CALIFORNIA ARE ACCUSED

**CHARGE CONSPIRACY IN ORDER TO SHUT OUT FRUIT FROM EUROPEAN PORTS**

WASHINGTON, August 8.—Congressman Harrison of New York in discussing the conference report of the agriculture appropriation bill in the house today, charged the California fruit dealers with having conspired with other interests to shut out the fruit importations at Atlantic ports.

The report eliminated the provision limiting a quarantine against the Mediterranean fly pest so it would apply only to the Atlantic coast.

An passed the house bill specifically exempted the Atlantic coast. Harrison said the effect of the conference change would be to heighten the tariff wall to the benefit of the California fruit interests. Kent of California and Moore of Pennsylvania denied the amendment would have this effect. Despite Harrison, the conference bill was reported unchanged. The whole bill now goes to the president.

## SENATE FAVORS FREE PASSAGE AMERICAN BOATS

**AGREEMENT IS REACHED WHEREBY CONGRESS WILL ADJOURN AUGUST 17**

WASHINGTON, August 8.—Leaders of both houses have fixed the adjournment for August 17. It is expected the senate will complete the consideration of the canal bill today, following last night's action in approving of the free passage of American vessels through the canal by a vote of 49 to 11.

The only stumbling block the bill now has is the senate amendment permitting railroad-owned vessels to use the waterway. The house prohibited the passage of such boats.

Mrs. A. Roland of Reno came in on this morning's train from the city on the Truckee.

## REGISTRATION NOTICE

Notice is hereby given that the time for registration of the names of the qualified electors in the election district of Tonopah township, in the several precincts of said township, in Nye county, Nevada, prior to the primary election to be held on the 2d day of September, 1912, for the said county of Nye, will expire at 6 o'clock p. m. on the 19th day of August 1912. Registration offices located in rooms 203-204, State Bank building.

H. H. ATKINSON, Registry Agent

Advertisements in the Bonanza bring big results.

## WARM WEATHER IS EXPERIENCED HERE YESTERDAY

**RAVS FROM OLD SOL SEND THE MERCURY UP TO THE 89 DEGREE MARK**

The official thermometer at the government weather bureau registered 89 degrees yesterday afternoon. This came within two degrees of the record for the year set last month when the mercury climbed to the 91 degree mark.

It was reported down town that the thermometer registered 100 degrees in the sun, but it is understood the instrument was attached to the side of a building when that mark was reached. However, no argument could be secured when it was asserted that the day was a hot one. Shady nooks were at a premium, while the heat actuated a thirst that could only be satisfied with the aid of a "scoop" or two.

Had the mercury ascended another notch the Bonanza staff laboring in the tent structure would have been forced to appear in pajamas as a working costume, but fortunately the mercury stayed its flight and society was not treated to the threatened sight.

## PERSONALS

Harry Mead returned to Rhyolite this morning on train 24.

Attorney J. K. Chambers left this morning for Blair, where he goes on legal business.

Hugh H. Herd, the Manhattan business man, is spending a few days in Tonopah.

C. D. Terwilliger, traveling manager of the Verdi Lumber company, arrived this morning from Reno.

Mr. and Mrs. Charles D. Kirchen of Manhattan arrived from the pine tree camp by auto last night.

Thomas D. Rogers, after spending several days in Tonopah, returned to his Manhattan home this morning.

C. J. Hammes of Sacramento was an arrival on this morning's train and is registered at the Mizpah.

County Commissioner C. A. Humphrey departed for Rhyolite and Pioneer on this morning's south-bound train.

R. J. Highland of the Southern Nevada Abstract company left this morning for Yerington on a several days' business trip.

E. H. Mead of the Tonopah Leasing and Mining company, departed this morning for San Francisco on business connected with his company.

Mrs. Martha Zerkovich, a sister of the late John Gregovich, arrived from Castellana, Austria, the fore part of the week on a visit to Mrs. Gregovich and her family. After a short stay here she will return to Europe.

**DYNAMITE EXPLODES**

PORTLAND, Ore., August 8.—Dynamite stored in the house of Percy Warren, a bachelor, caused his death last night, his brother, Dr. Ernest Warren said today. Dr. Warren said that the explosion which blew his brother's body to pieces must have been accidental.
